

PROFESSIONAL SUMMARY

Passionate Junior Full Stack Engineer with practical industry experience developing and maintaining modern web applications in agile environments. Dedicated to continuous learning, clean code practices, and building software that creates meaningful user experiences.

TECHNICAL SKILLS

- FRONTENDNext.js, React, Redux, TypeScript, JavaScript(ES6+), Tailwind CSS, CSS3, HTML5
- BACKENDNode.js, Express.js, Python (Intermediate), Java (Intermediate), C++, C
- DATABASEMongoDB, MySQL
- TOOLS & TECHNOLOGIESFigma, VS Code, Git & GitHub, Chrome DevTools, REST APIs, JWT Authentication, SEO Optimization
- AITOOLSStitch, GitHub Copilot, OpenAI Codex, Antigravity, NotebookLLM
- AREAS OF INTERESTArtificial Intelligence & Machine Learning, Full Stack Development

PROFESSIONAL EXPERIENCE

JULY 2025 - PRESENT

JUNIOR FULL STACK DEVELOPER | Interlock Solutions

- Developed and enhanced business applications to support operational workflows and customer-facing services.
- Collaborated with stakeholders, designers, and development teams to deliver scalable, user-focused solutions.
- Optimized application performance, resolved production issues, and ensured cross-browser and cross-device compatibility.

Key Achievements & Solutions

- Delivered key application modules that streamlined business processes and improved operational efficiency.
- Enhanced system responsiveness through query optimization, efficient data handling, and performance improvements.
- Contributed to successful releases by resolving critical issues, maintaining code quality, and supporting feature enhancements.

PROJECTS

- BONTEMPS - [Live](#)
 - Developed a feature-rich online pastry ordering platform with product customization, shopping cart, secure checkout, and order management capabilities.
 - Implemented scalable backend services and administrative tools to support inventory control and day-to-day business operations.
 - Impact: Enabled a seamless online ordering experience while reducing manual order handling and improving overall workflow efficiency.
- CHOKOFI - [Live](#)
 - Designed and developed a premium chocolate e-commerce platform featuring product catalog management, customer management, inventory tracking, and order processing workflows.
 - Built secure authentication, role-based access control, and administrative modules to streamline business operations and content management.
 - Impact: Improved operational efficiency by centralizing product, customer, and order management within a single platform.
- SOUTHERNGOURMETBITES - [Live](#)
 - Created a responsive corporate website to showcase products, company information, and brand identity through a modern and engaging user experience.
 - Implemented SEO best practices, performance optimizations, and structured content architecture to improve discoverability and accessibility.
 - Impact: Strengthened the brand's digital presence, enhanced user engagement, and improved search engine visibility across target audiences.

INTERNSHIP EXPERIENCE

FEB 2025 - APR 2025

MERN Stack Developer Intern | Tripple One Solutions (Online)

- Developed full-stack web application features using the MERN stack.
- Integrated REST APIs and database operations.
- Worked with version control and collaborative development workflows.

EDUCATION

- 2022 - 2024

Master of Computer Applications (MCA) | SRM Institute of Science and Technology, Tiruchirappalli | CGPA : 8.7
- 2019 - 2022

Bachelor of Science in Computer Science (Bsc) | Annaivailankanni Arts & Science College, Thanjavur | Percentage: 81%

STRENGTHS

- Strong Problem Solving
 - Solution-Oriented Thinking
 - Pixel-Perfect UI Implementation
- Time Management
 - Continuous Learning
 - Team Collaboration

ACHIEVEMENTS

- Built and deployed multiple full-stack web applications.
- Experienced in creating responsive and modern user interfaces.
- Hands-on experience with e-commerce, food ordering, movie discovery, and weather forecasting applications.
